

FOREX ARBITRAGES PLUS

INSTALLATION

The robot works on Metatrader platform, if you don't have it installed already then please open a demo account with any broker that supports Metatrader. Download and install Metatrader then continue the installation process of your EA.

After installing Metatrader:

Copy the indicator (Forex Arbitrages Plus.ex4) to : Windows/Program files/Metatrader/Experts.

Restart Metatrader

Open **EUR/UDS chart – 1 M** (1 minute) Time frame.

Under "Navigator" window, double click on "Expert Advisors" and then double click on "Forex Arbitrages Plus" icon.

To use Forex Arbitrages Plus successfully, you must have basic trading knowledge and know how to use Metatrader platform.

There are many free resources online that would teach you the basic trading information you need. And you can contact Metatrader's support if you experience any problems when you use it for the first time.

You can use the EA with 4 – 5 digits broker, and it works with new NFA rules (no hedge rule) but it's not recommended to be used with ECN brokers because it needs low fixed spread.

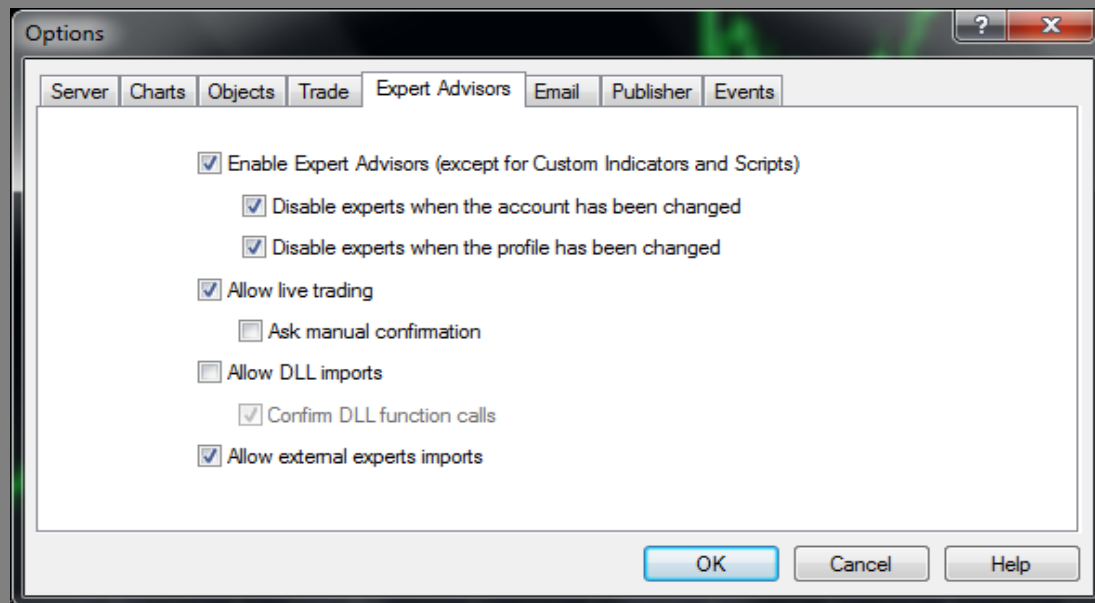

Also, the currency pair's symbols must be normal. For example: EUR/USD. And not something like EURxyz/USDxyz!

After installing the EA you should see a smiley face on chart .. that means your EA is now working properly.

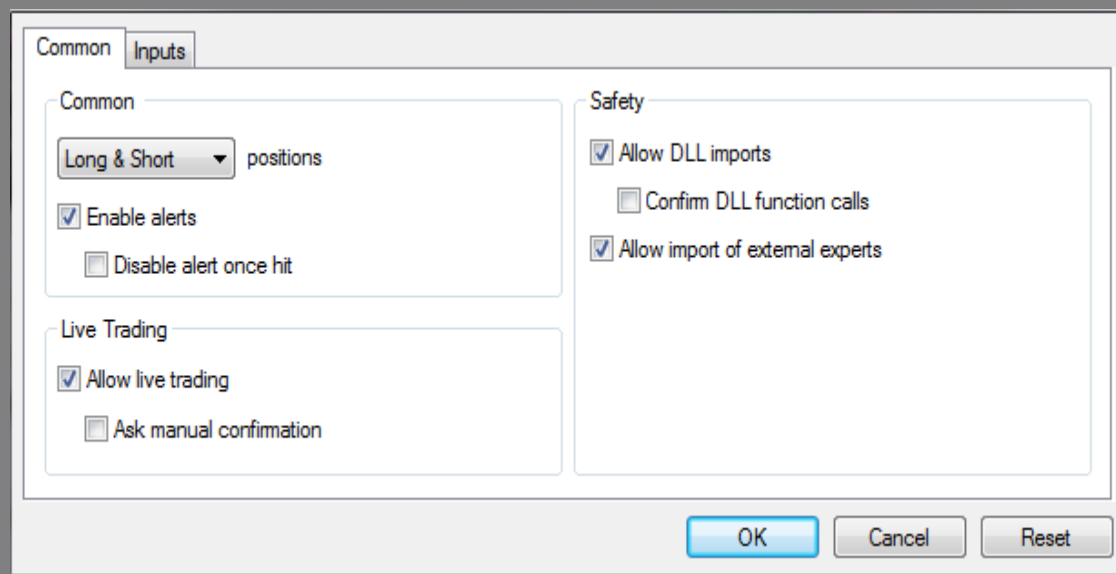

ADJUST SETTINGS

Before you start using the EA, make sure that all settings and parameters are correct.

In Metatrader: go to Tools >> Options >> Expert Advisors

2 – in the EA's settings. Go to >> Common

In the main toolbar, click on >> Expert Advisors:

Please copy these settings and use it as your default settings for this EA:
